

CITY OF WALTHAM
Engineering Department

Robert S. Winn, PE
City Engineer

June 11, 2021

Dear Resident,

Please be advised that water service to your residence will be interrupted **Wednesday 6/16/21**. The water will be shut off at **8:00 AM** and is expected to be turned back on at **3:00 PM**. Please draw enough water for drinking and cooking prior to 8:00 AM on Wednesday 6/16/21.

This interruption in service is to allow crews to replace water valves on Main Street between Lunda Street and Eddy Street.

When your service is restored, you should run your cold water at the highest faucet to alleviate any air and/or discolored water you experience.

Please note that this work is weather dependent and rain may cause the work to be rescheduled. You will receive an additional notice in the event work is postponed.

If you have any questions or concerns, please contact the Engineering Department by phone 781-314-3830 or by email, jmartino@city.waltham.ma.us.

Sincerely,

John Martino
Jr. Civil Engineer
